

PMP Lightweight Series

Eco-friendly **NEW!**
Lightweight and Bio-PET Products

Accessories shown: (from the left) P-Alm Cap / PMP/YS Alm Cap / PD-3033GVR Pump

Lightweight and BIO-PET products are now available as in-stock items.

By reducing the weight of the container, the amount of plastic used and the environmental impact is reduced. These lightweight products are between 25% and 30% lighter than our conventional products.

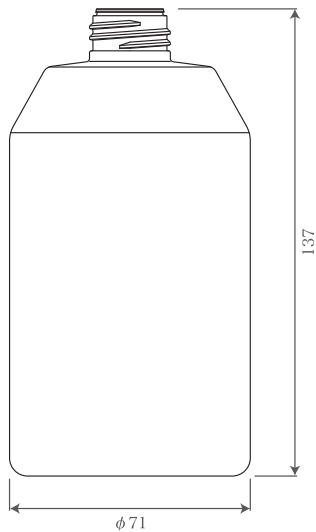

They are an ideal choice for organic and sustainable bath, body and hair care products and are available in small quantities.

PMP Lightweight Series

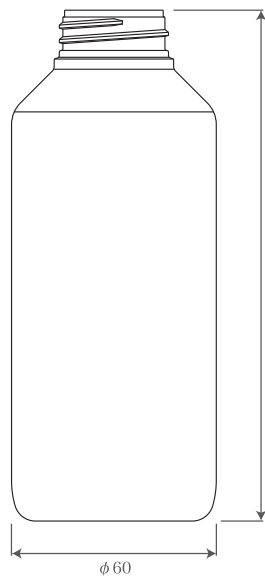

New PMP Series Lightweight Lineup

P (24/410) Series accessories/ G-Plug type

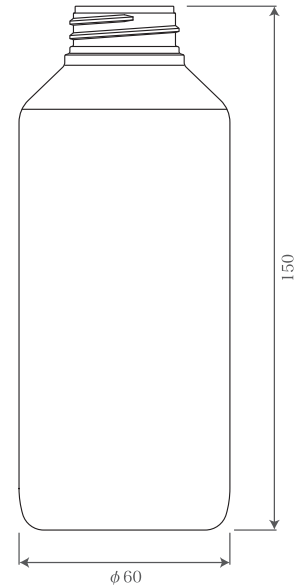

33 φ pump neck finish

PMP-400(25.0G)
Weight: 25g

Molding method: Injection stretch blow

The quality and appearance are the same as our conventional products.
However, the squeezability, wall thickness, and fill line position differ from existing items, so please confirm specifications with a sample before use.

Containers made with plant-derived raw materials

These containers are made with biomass plastic in which molasses from plants (sugar cane, etc.) is used as a raw material so that ethylene used in the production of the resin is bio-based.

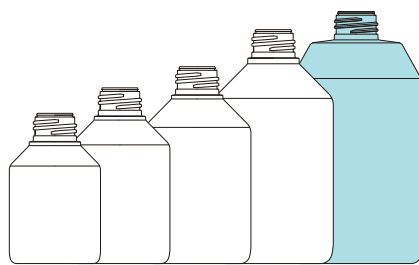

Lightweight containers

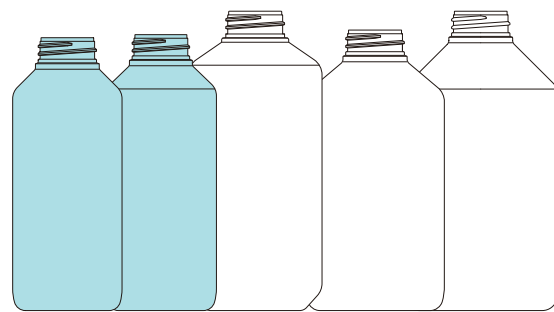

Lightweight containers that use less petroleum-derived raw materials than conventional products.

PET products available in the same series
