

S-PPC-250

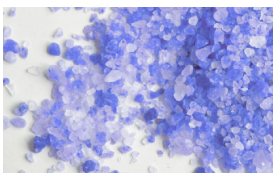

New size added to
eco-friendly jar series
with flush design!

Caps (from the left) : C-80 Flip-Top Cap / C-80 W CAP
Jars : S-PPC-250
Spatula : SpaBody

Both the jar and screw cap are made with sustainable, plant-derived biomass PE (30% ratio) material.

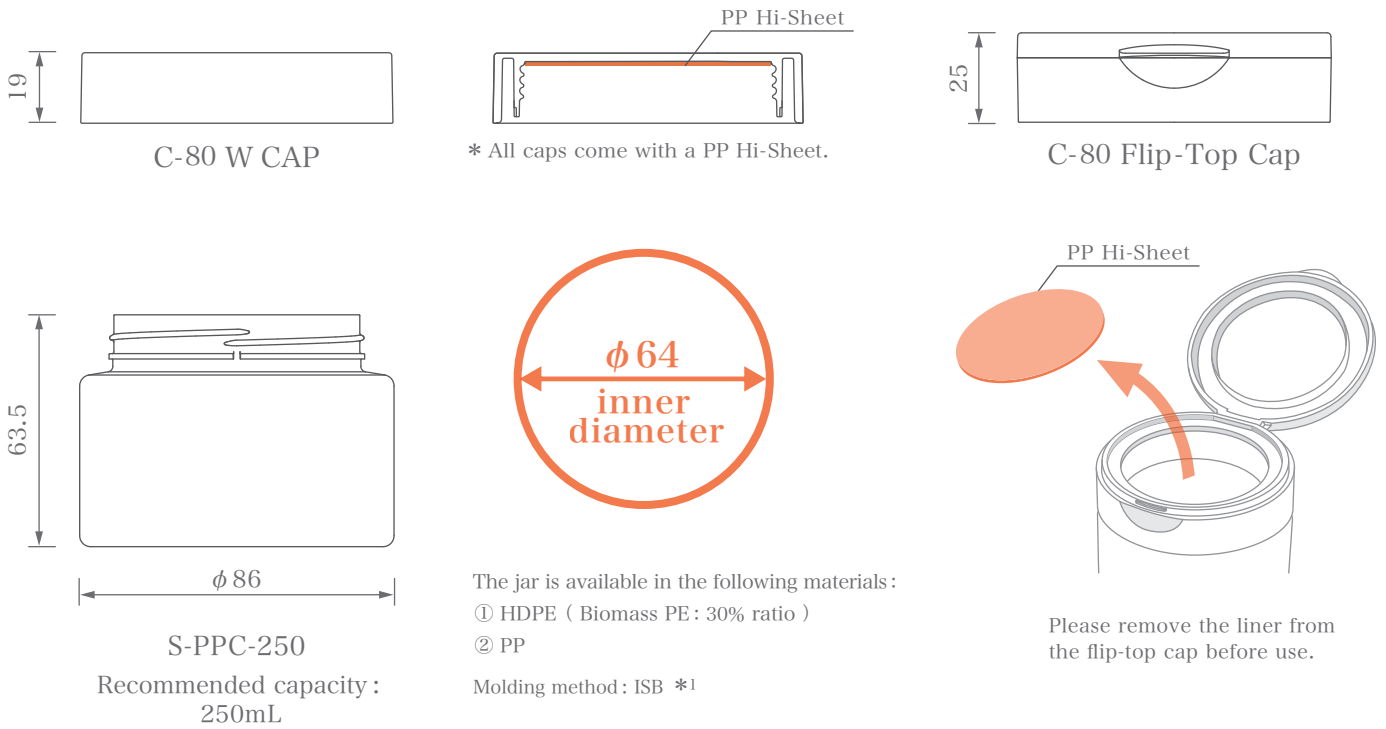

The jar features a large diameter that makes it easy to take out the contents.

It is suitable for a wide range of applications including cosmetics, hair care, and body care.

S-PPC-250 — Biomass PE jar and cap with flush design —

*1 Molding method : " ISB " stands for " injection stretch blow molding".

Containers made with plant-derived raw materials

This container contains biomass plastic in which the ethylene for resin production is derived from plants (molasses from sugar cane etc.).

Molded product		Biomass PE
